# Looking Backward

- Just 100 years back Sustainability was natural
- It was never talked about
- People used to Plant trees, do conducive agriculture & farming, Live close to nature
- They cared for Every Thing and Every Being
- Waste did not exist, since Every waste had a purpose & was used back

# Present Scenario

**TECHNOLOGY**

**CONVENIENCE**

**ALTERED  
INTENTIONS**

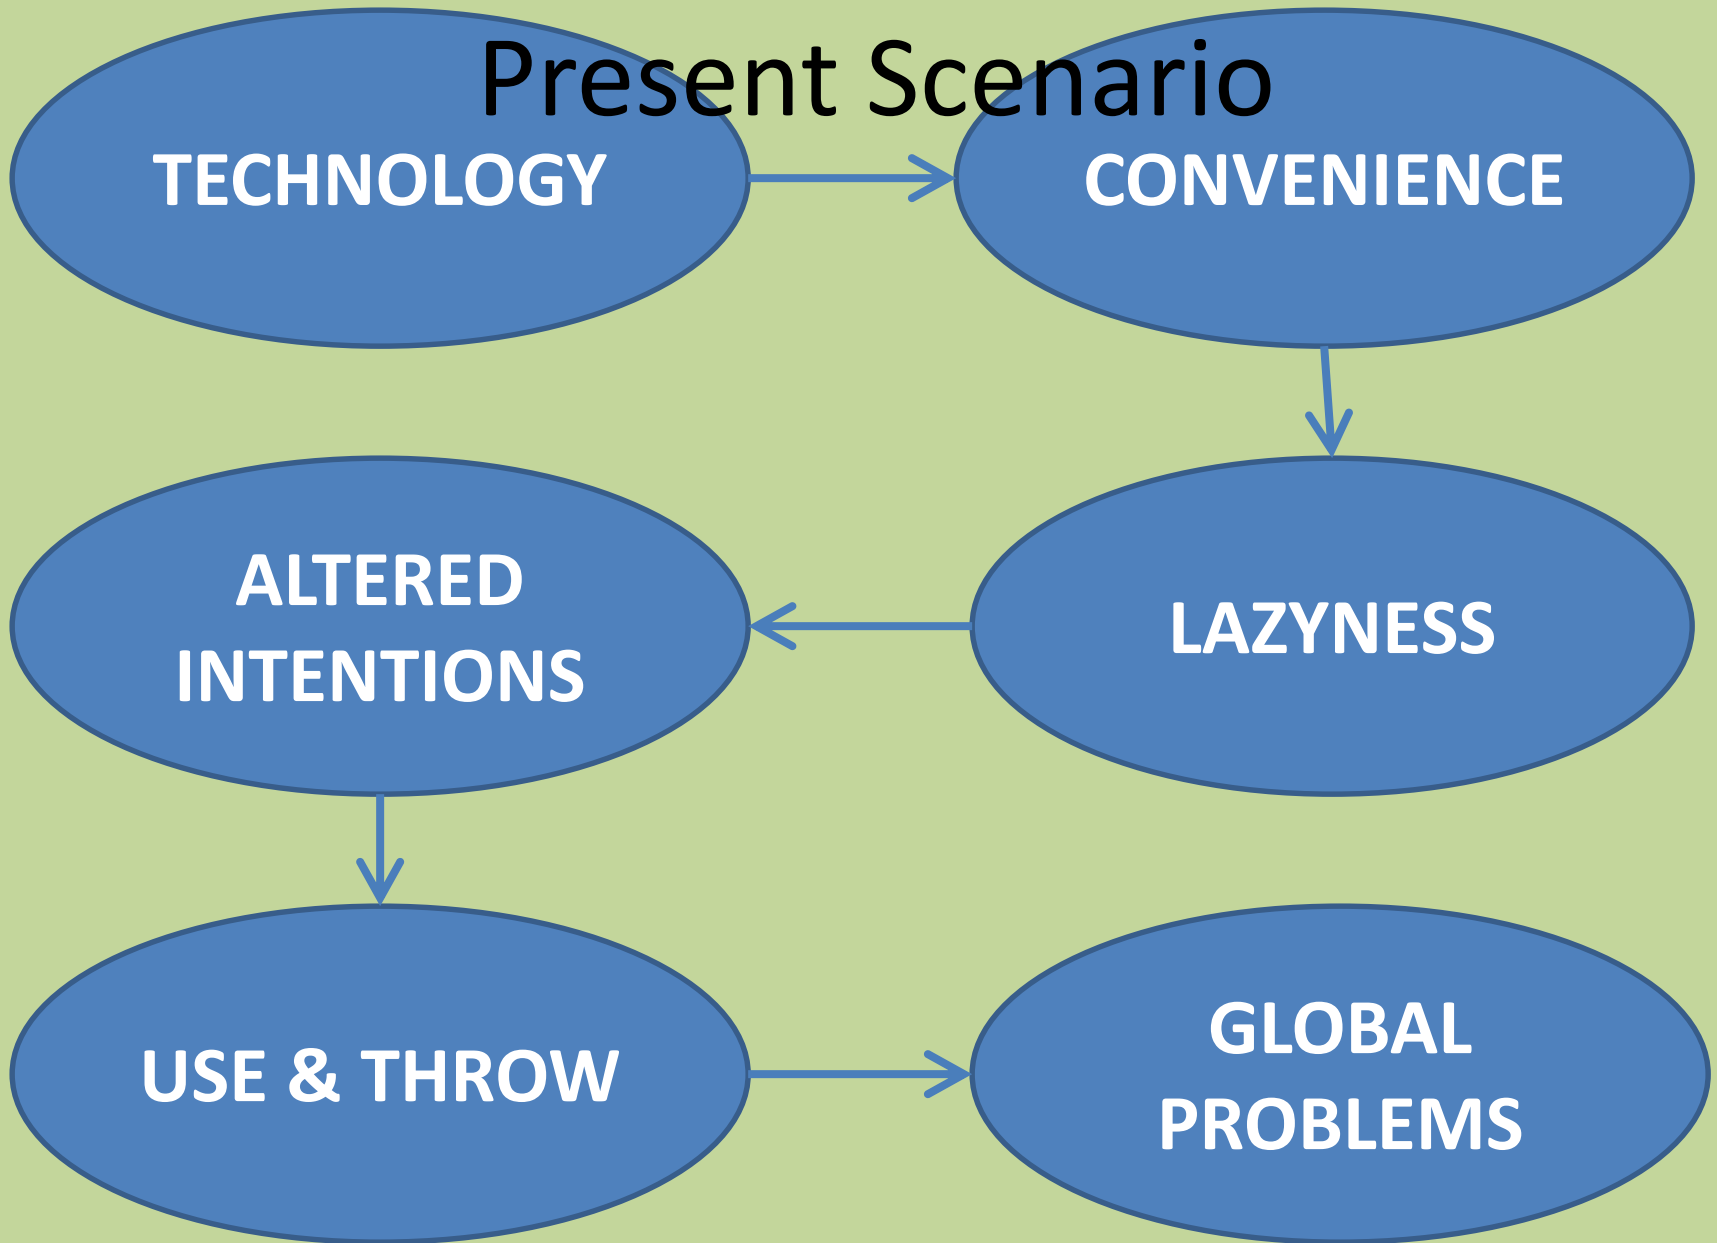

**LAZYNESS**

**USE & THROW**

**GLOBAL  
PROBLEMS**

Everything in the universe is controlled and owned by the Lord. One should therefore accept only those things necessary for oneself, which are set aside as one's quota, and one should not usurp others' things. One may live for hundreds of years working in that way, for that sort of work will not bind him to the law of karma. There is no alternative to this way for man.
